Features

Control from Anywhere

Control all appliances in your home from anywhere in the world.

Comfort and Convenience

Switch on/off appliances anytime from anywhere. No more worries about hassles at home.

Tighter Security

Monitor your home on the go. Set virtual locks on every room that'll smartly notify about any intrusion.

Live Power Tracking

Monitor hourly and daily power consumption at home in real time to help save more power.

Timing Set-up for all Devices

Set timers on any device, from light bulbs to water pumps.

Lighting Options Tailor made for you

Set custom light settings than turn on with a single tap to suit different moods- like movie night, party scene etc.

Smart Entertainment Control

Control all IR remotes with just the smartphone. Give a smart makeover to your DTH TV with new capabilities.

A Mobile App for the Beloved Master

Have complete control over the smart home with your phone. Keep an eye on your home from anywhere in the world.

The Voice Assistant

Your home's new best friend: With Amazon echo or Google assistant, use your voice as a remote to control all your appliances.

More Intelligence to your Appliances

Let your appliances customize their actions for you, without you having to play with the remotes all the time.

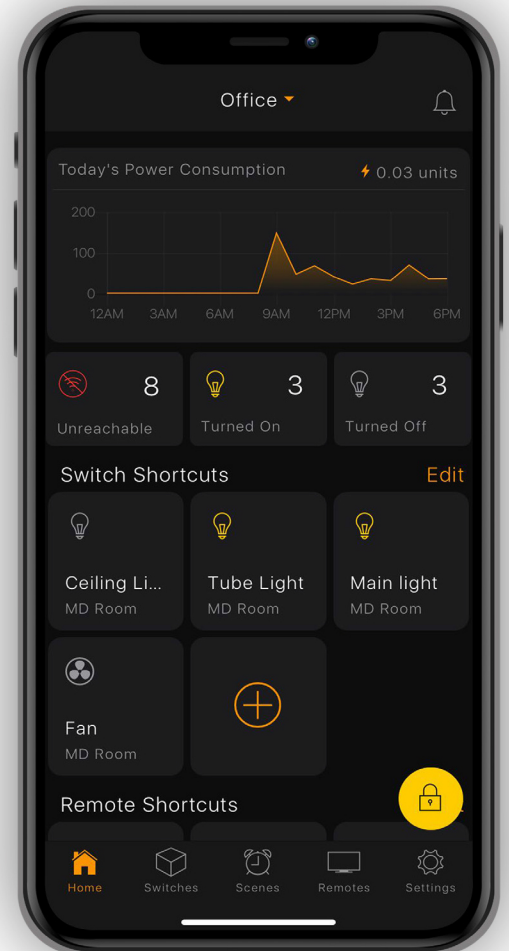

Seamless User Experience

The app windows easily switches between home, switches and remote tabs to enable an effortless user experience.

Power Tracking Tab

The power tracking tab on the home dashboards displays your hourly and daily power consumption in real time.

Set Schedules & Routines

Set your appliances to power on/off at preset timings, create routines for a set of appliances so they can operate in sync without manual operation.

Lock Room Capability

This feature lets the user lock any room in the house via the app, so that he'll be notified of any intrusion immediately.

Option to share home access

Share your smart home app access with all other members of your home

Scenes

Customize your appliances to create theme based scenes for you whenever you want them to. Ex: evening scene, birthday scene etc.

Workflows

Let your appliances make intelligent decisions based on their surroundings. Ex: Your AC automatically switches on when the room temperature reaches 30 degree Celsius.

Create auto-turn off timers

Set timers on your appliances so they only work for the required duration.

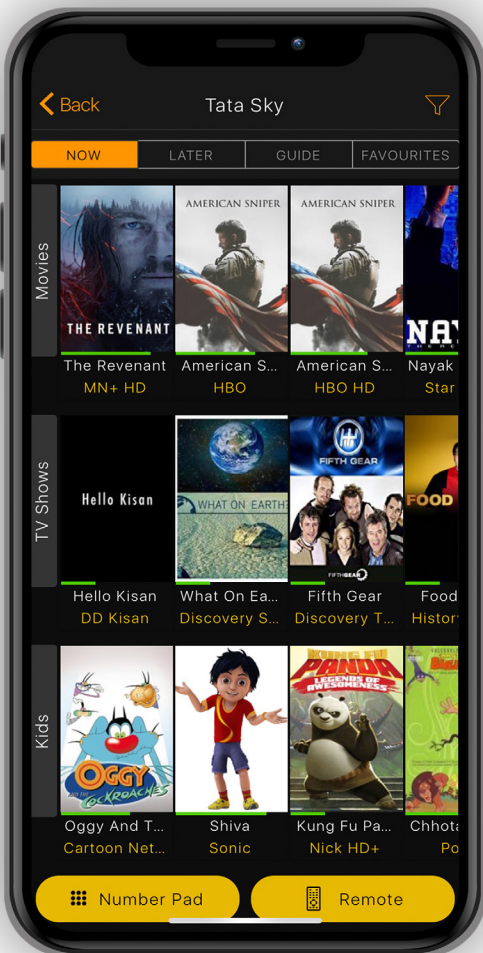

Remotes

Use your app as a substitute remote for all your physical IR remotes. Create custom remotes and default remotes

Inapp Entertainment Guide

Access your TV guide inside your app. Set favorites, reminders, access streaming links on your favorite channels and programs.

VOICE INTEGRATION

Control your smart home with even greater ease. Use your **Google Assistant** or **Amazon Echo** product to operate your appliances with just your voice!

"Hey **Google**, Turn on AC"

"**Alexa**, Turn on Geyser"

"Hey **Google**, Turn off AC"

"**Alexa**, Turn off Geyser"

RETROFITS

Sian offers a wide range of Retrofit switches designed to fit seamlessly into any home environment, catering to various budgets. Our Sian Retrofit Controller is an innovative solution that transforms your existing mechanical switches into smart devices without the need for rewiring. The retrofit module is conveniently installed inside the switch-board, converting your regular switches into smart ones, allowing you to control any connected device easily.
